METHVEN AURAJET AIO HI RISE SHOWER

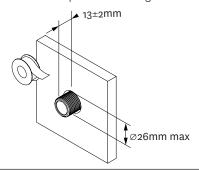

INSTALLATION INSTRUCTIONS

IMPORTANT: Please read all of the instructions before installation.

IMPORTANT: Before you begin, turn off the water supply.

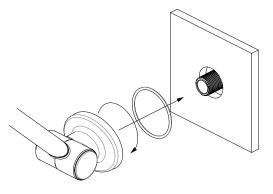

Step 1

- Wall lining hole should be cut or finished as per the dimension shown in the diagram below.
- Cut off the threaded nipple 13 ±2mm from the wall lining and apply thread seal tape to ensure a good seal.

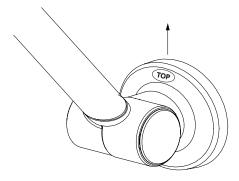

Step 2

• Screw the shower arm onto the nipple ensuring that the o-ring is sufficiently compressed to create a watertight seal

Step 3

• Ensure that the shower arm is oriented vertically with the 'Top' sticker on the shower arm oriented upwards.

Care and Cleaning

We recommend the use of soapy water or approved cleaners. This product should not be cleaned with abrasive materials. Damage caused by improper treatment is not covered by the product warranty – refer to warranty conditions.

Clean filter washer located in the swivel joint periodically.

If shower performance is compromised by the build-up of lime-scale, clean by using a soft toothbrush and gently scrubbing along the spray slot under running water.
